PROJECTS

ONLINE HOSPITAL MANAGEMENT

Have developed a web application titled "Online Hospital Management System" for Jayashree Hospital, Mangalore.

The main objective of the Hospital Management System is to manage the details of the Hospital and its stake holders. The aim is to automate existing manual system into a full-fledged computer software, fulfilling their requirements, so that their valuable report can be stored for future references with easy access.

Technology used

- Front end : PHP 7.2
- Back end SER : MYSQL 5.7
- Languages : HTML, CSS, JS

GEAR DOCTOR

Gear Doctor can be used for booking a mechanic service at the customer's place of need. This system allows the customers to book a mechanic's service and the nearest mechanic available to that customer at that particular place can be booked for the customers to serve him/her.
